Ultra-Flex Adhesion Promoter AP/AP174

1 Identification

GHS Product Identifier
Ultra-Flex Adhesion Promoter AP/AP174

Other means of identification
Organosilane Adhesion Promoter

Recommended use of the chemical and restriction on use
Promote Adhesion between organic/ inorganic substrates.

Supplier's details
Lava-Liner, Ltd.
1550 G Tiburon Blvd. Suite 418
Tiburon, CA 94920
Ph. 415-829-9114 Fax: 415-829-9203
www.lava-liner.com

Emergency phone number
Chemtrec 800-424-9300

2 Hazard(s) identification

Classification of the substance or mixture

GHS label elements

Danger

![Flammable Liquid and Vapour]

Highly flammable liquid and vapour

Causes serious eye irritation

May cause drowsiness or dizziness

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

Keep container tightly closed.

Ground and bond container and receiving equipment.

Use non-sparking tools.

Take action to prevent static discharges.

Avoid breathing dust/fume/gas/mist/vapours/spray.
Wash skin thoroughly after handling.

Use only outdoors or in a well-ventilated area.

Contaminated work clothing should not be allowed out of the workplace.

Wear protective gloves/protective clothing/eye protection/face protection.

IF SWALLOWED: call a POISON CENTER or doctor/physician IF you feel unwell.

IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower].

IF INHALED: Remove person to fresh air and keep comfortable for breathing.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Call a POISON CENTER/doctor/physician if you feel unwell.

If skin irritation or rash occurs: Get medical advice/attention.

Take off contaminated clothing and wash it before reuse.

In case of fire: Use dry chemical, alcohol-resistant foam, carbon dioxide (CO₂) or water spray to extinguish.

Store in a well-ventilated place. Keep container tightly closed.

Dispose of contents/container to appropriate landfill or destroy in accordance with local and national regulations.

### 4 First-aid measures

**Description of necessary first-aid measures**

Inhalation: Immediate remove victim to fresh air. If breathing is difficult, have qualified personnel administer oxygen. If breathing has stopped, administer CPR. Get immediate medical attention.

Skin: Wash skin thoroughly with soap and water after handling. Get medical attention if irritation or rash develop. Remove and launder contaminated clothing before reuse.

Eye: Immediately flush victim's eyes with large quantities of water for at least 15 minutes, holding the eyelids apart. Remove contact lenses if present after the first 5 minutes and continue flushing. Get immediate medical attention.

Ingestion: Do not induce vomiting. If the victim is conscious and alert, rinse the mouth with a small amount of water. Get medical advice by calling a poison center or hospital emergency department.

**Most important symptoms/effects, acute and delayed**

Causes eye irritation. May cause allergic skin reaction. Inhalation of vapors may cause abdominal pain and nervous system effects including dizziness, drowsiness, nausea, vomiting, visual disturbances and unconsciousness.

**Indication of immediate medical attention and special treatment needed, if necessary**

Immediate medical attention is required for eye contact, and allergic skin reactions.

### 5 Fire-fighting measures

**Suitable extinguishing media**

For large fires: Use carbon dioxide or dry chemical. For small fires: carbon dioxide, dry chemical, alcohol-resistant foam, or halon. Do not use solid water stream.
Specific hazards arising from the chemical
Highly flammable liquid and vapor. Vapors are heavier than air and will travel along surfaces to remove ignition sources and flash back. Vapors will collect in low areas. Vapors may be ignited by static sparks. Flames may be invisible in daylight. Burning may produce carbon monoxide and unidentified organic compounds.

Special protective actions for fire-fighters
Firefighters should wear positive pressure self-contained breathing apparatus and full protective clothing. Cool fire-exposed containers with water. Do not breathe combustion products. Do not release water from firefighting to sewers or waterways.

6 Accidental release measures

Personal precautions, protective equipment and emergency procedures
Wear appropriate protective equipment. Eliminate all ignition sources and ventilate the area with explosion-proof equipment. Prevent entry into basements or confined areas.

Methods and materials for containment and cleaning up
Stop spill at the source if it is safe to do so. Absorb with an inert material. Use non-sparking tools and equipment. Collect into a suitable container for disposal. Prevent spill from entering sewers and water courses. Report releases as required by local, state and federal authorities.

7 Handling and storage

Precautions for safe handling
Avoid contact with the eyes, skin and clothing. Do not breathe aerosols and vapors. Wear protective clothing and equipment as described in Section 8. Use only with adequate ventilation. Wash thoroughly with soap and water after handling. Remove contaminated clothing and launder before re-use.

Do not reuse containers. Empty containers retain product residues can be hazardous. Follow all SDS precautions when handling empty containers. Do not cut, drill, weld, braze, etc. on or near containers, even empty containers. Residue inside containers may ignite explosively leading to injury or death.

Conditions for safe storage, including any incompatibilities
Keep containers closed when not in use. Keep away from excessive heat, flames and other sources of ignition. Do not store or handle in aluminum equipment at temperatures above 120 °F.

8 Exposure controls/personal protection

Control parameters

<table>
<thead>
<tr>
<th>Component</th>
<th>Exposure Limit</th>
</tr>
</thead>
<tbody>
<tr>
<td>Isopropanol</td>
<td>400 ppm TWA OSHA PEL</td>
</tr>
<tr>
<td></td>
<td>200 ppm TWA, 400 ppm STEL ACGIH TLV</td>
</tr>
<tr>
<td>Organosilane Blend</td>
<td>None Established</td>
</tr>
</tbody>
</table>

Appropriate engineering controls
Use with adequate ventilation to maintain exposure levels below the occupational exposure limits.

Individual protection measures
Respiratory Protection: In operations where exposure limits are exceeded or exposure levels are unknown, a NIOSH or other authority approved supplied air respirator appropriate for the form and concentration of the contaminants should be used. Air-purifying respirators may be used under some conditions with a cartridge change schedule that is based on the expected airborne exposure levels. Selection and use of respiratory equipment must be in accordance with OSHA 1910.134 or other applicable regulations and good industrial hygiene practice.
Skin Protection: Wear impervious gloves such as butyl rubber or nitrile rubber to avoid skin contact. Contact your glove supplier for specific recommendations. Wear protective clothing as needed to avoid skin contact and prevent contamination of personal clothing.

Eye Protection: Chemical safety goggles recommended.

Other protective equipment or clothing: Wear protective clothing as needed to avoid skin contact and prevent contamination of personal clothing.

9 Physical and chemical properties

Physical and chemical properties

APPEARANCE: Colorless liquid
ODOR: Ethyl alcohol, sharp and somewhat unpleasant.
ODOR THRESHOLD: Not determined
pH: Not determined
MELTING / FREEZING POINT: -88.3°C (-127°F)
BOILING POINT / RANGE: 82°C (180°F)
FLASH POINT: -4°C (24.5°F)
EVAPORATION RATE: Not determined
FLAMMABILITY (Gas, Solid): Flammable liquid
FLAMMABILITY LIMITS: LEL: 2% UEL: 12.7%
VAPOR PRESSURE: 44 mmHg at 25°C
VAPOR DENSITY: (Air = 1) 2.1
RELATIVE DENSITY: 0.79
SOLUBILITY IN WATER: Miscible.
OCTANOL/WATER COEFFICIENT: Not determined
AUTOIGNITION TEMPERATURE: 432°C (810°F)
DECOMPOSITION TEMPERATURE: Not determined
VISCOSITY: Not determined

10 Stability and reactivity

Reactivity
This material is not reactive under normal conditions.

Chemical stability
Stable under recommended storage and handling conditions.

Possibility of hazardous reactions
May react with concentrated nitric and sulfuric acids, strong oxidizers, aldehydes, and halogen compounds.

Conditions to avoid
Avoid heat, sparks, flames, and all other sources of ignition.

Incompatible materials
Concentrated nitric and sulfuric acids, strong oxidizers, aldehydes, and halogen compounds. Do not store or handle in aluminum equipment at temperatures above 120 °F.

Hazardous decomposition products
May produce carbon monoxide and unidentified organic compounds.

11 Toxicological information

Toxicological (health) effects

Date of Preparation: 7/18/2016 2:03:11 PM
Revision: 1
Ingestion: Swallowing may cause gastrointestinal effects including abdominal pain, nausea and diarrhea and central nervous system effects including dizziness, drowsiness, nausea, vomiting, and unconsciousness. Based on animal data, this product is not expected to be toxic by ingestion.

Inhalation: May cause respiratory tract irritation and central nervous system effects. Exposure to high concentrations has a narcotic effect, producing symptoms such as dizziness, drowsiness, headache, and unconsciousness.

Eye Contact: Causes irritation of the eyes with redness, pain and tearing. Corneal injury is possible.

Skin Contact: May cause allergic skin reaction (rash, itching and swelling).

Chronic Effects: Repeated skin contact may cause sensitization with allergic reaction. Symptoms can occur immediately following exposures or can be delayed for several hours.

Numerical measures of toxicity (such as acute toxicity estimates)
Product calculated ATE – GHS Method:
LD50: Rat oral 4848 mg/kg;
LD50: Rabbit skin 9137 mg/kg;
LC50: Rat Inhalation 27 mg/L/4 hr

Other information
Carcinogenicity Listing: None of the components is listed as a carcinogen or suspected carcinogen by IARC, NTP or OSHA.

12 Ecological information

Toxicity
No data for product
Isopropanol: LC50 fathead minnows (Pimephales promelas), 9,640-10,400 mg/L/96 hr
EC50 water flea (Daphnia magna), immobilization: 7,550-13,299 mg/L/48 hr
EC50 alga Scenedesmus sp., Growth rate inhibition: >1,000 mg / 72 hr
Organosilane Blend: EC50 water flea (Daphnia magna), 0.91 mg/L/48 hr (Calculated)

Persistence and degradability
Isopropanol: Is readily biodegradable
Organosilane Blend: Not readily biodegradable.

Bioaccumulative potential
Isopropanol: Not Bio-accumulative.
Organosilane Blend: Not Bio-accumulative.

Mobility in soil
Isopropanol: Potential for mobility in soil is very high
Organosilane Blend: No data available for product.

Other adverse effects
Toxic to aquatic life with long lasting effects.

13 Disposal considerations

Disposal methods
Dispose in accordance with local, state and federal environmental regulations.

**14 Transport information**

**UN Number**

1219

**UN Proper Shipping Name**

Isopropanol / Isopropyl Alcohol

**Transport hazard class(es)**

**LAND TRANSPORT ADR/RID:**
- SUBSTANCE NAME: Isopropanol (Isopropyl alcohol)
- UN NUMBER: UN1219
- ADR/RID CLASS: 3
- ITEM NUMBER: 3(b)
- WARNING SIGN/LABEL: 3
- HAZARD ID NUMBER: 33

**AIR TRANSPORT IATA/ICAO:**
- PROPER SHIPPING NAME: Isopropanol
- UN/ID NUMBER: UN1219
- IATA/ICAO CLASS: 3
- PACKAGING GROUP: II
- LABEL: Flammable liquid

**MARITIME TRANSPORT IMDG:**
- CORRECT TECHNICAL NAME: Dimethyl carbinol
- UN/ID NUMBER: UN1219
- IMDG CLASS: 3.2
- PACKAGING GROUP: II
- EmS No.: 3-06
- MFAG Table No.: 305
- IMDG CODE PAGE: see 3244

**Packing group, if applicable**

II

**15 Regulatory information**

**Safety, health and environmental regulations specific for the product in question**

**CERCLA/SUPERFUND:** Spills of this product are not required to be reported to the National Response Center. Many states have more stringent release reporting requirements. Report spills required under federal, state and local regulations.

**SARA HAZARD CATEGORY (311/312):** Acute Health, Fire Hazard

**SARA 313 INFORMATION:** This product contains the following chemicals subject to Annual Release Reporting Requirements Under SARA Title III, Section 313 (40 CFR 372): Isopropyl Alcohol @ 80%.

**EPA TSCA INVENTORY:** All of the ingredients in this product are listed on the EPA TSCA Inventory.

**CALIFORNIA PROPOSITION 65**
This product contains the following chemicals known to the State of California to cause cancer or reproductive toxicity: None

**16 Other information**
Other information

**NFPA RATING:**  Health = 2  Fire = 3  Instability = 0
**HMIS RATING:**  Health = 2  Fire = 3  Physical Hazard = 0

Some of the information presented and conclusions drawn herein are from sources other than direct test data on the product itself. The information in this SDS was obtained from sources which we believe are reliable. However, the information is provided without any warranty, express or implied, regarding its correctness. The conditions or methods of handling, storage, use and disposal of the product are beyond our control and may be beyond our knowledge. For this and other reasons, we do not assume responsibility and expressly disclaim liability for loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of the product. If the product is used as a component in another product other than that provided by Lava-Liner, Ltd. this SDS information may not be applicable. This SDS has been prepared in accordance with the requirements of the OSHA Hazard Communication Standard (29 CFR 1910.1200).
